

EU Urban Mobility Policy Update

Expert Group on Urban Mobility

- The **Expert Group on Urban Mobility (EGUM)** is a platform for dialogue and the co-creation of new actions to implement the new EU urban mobility framework, set up in July 2022 by COM(2022) 5320.
- It includes 77 members: Member States, cities & regions, stakeholder associations, industry.
- During the period 2023-2024 the group produced **reports** on 6 topics: sustainable urban mobility planning, urban vehicle access regulations, public transport and shared mobility, active mobility and safety of vulnerable road users, future of urban space and mobility (all available at: https://transport.ec.europa.eu/transport-themes/urban-transport/expert-group-urban-mobility_en)
- EGUM Work Programme 2025 will focus on 3 new topics, with dedicated subgroups:
 - **Urban nodes - Cooperation between cities and stakeholders of their Functional Urban Area (FUA)**
 - **City access for businesses**
 - **Implementation of the European Declaration on Cycling**

Urban Mobility Indicators

- Ad-hoc working group of the TEN-T Committee, with meetings between October 2024 – April 2025.
- Topics: safety, sustainability, accessibility, horizontal indicators and geographical coverage of the data.
- Next meeting will be on 2 April.
- Have your say – public consultation: May-June 2025.
- TEN-T committee adopts opinion on Implementing Act: September 2025.
- Translation of draft Implementing Act: September-October 2025.
- Commission adopts the Implementing Act: October-November 2025.

National SUMP Support Programmes (NSSPs)

- Third NSSP workshop with national SUMP contact points: Prague, 3-4 April.
- EU platform for national SUMP contact points: 1st meeting over next 2-3 months (date tbc)

Multimodal passenger hubs study

- Deliverables: database of multimodal passenger hubs per urban node; expert report; 20 case studies.
- Final report: due by the end of June.

Update of SUMP Guidelines

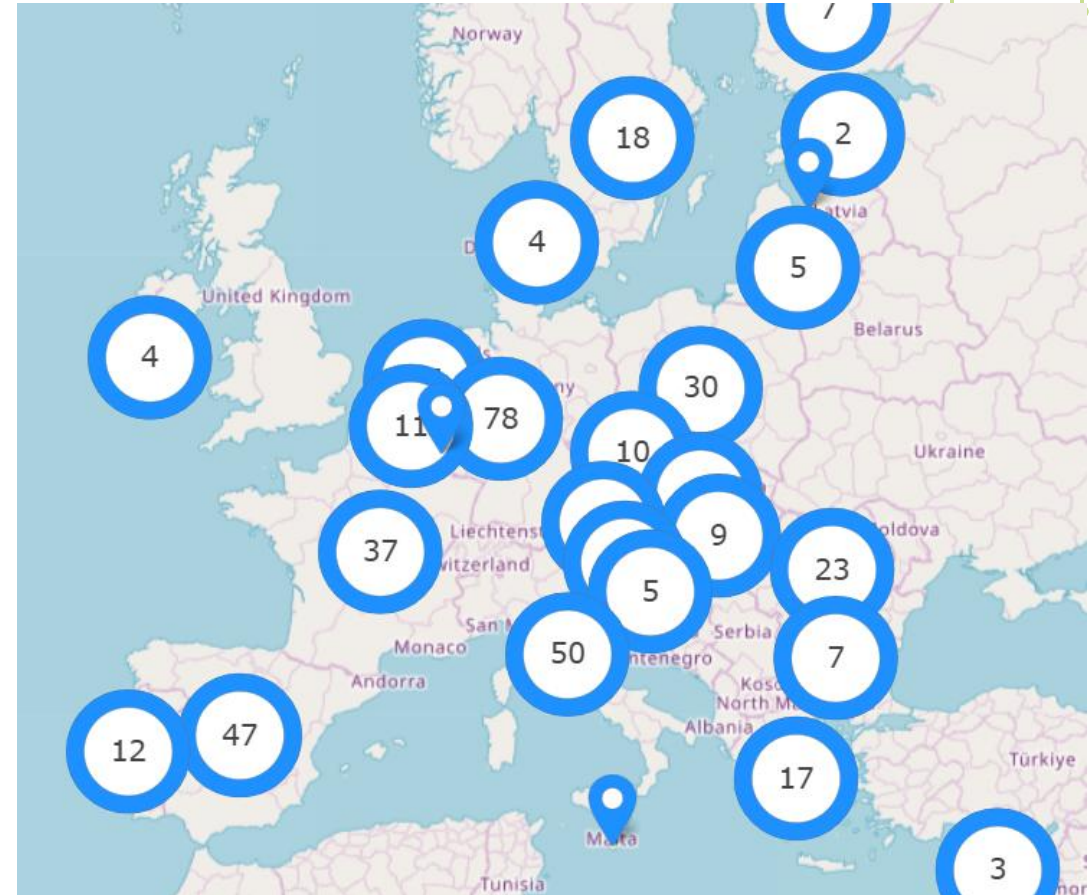

- An update has begun within the framework of the Urban Mobility Observatory contract, with a mature draft expected by June.
- The next version will be available in time for the Urban Mobility Days conference (end Sept).

Update of SUMP reference materials

- Some existing reference materials (formerly known as ‘topic guides’) will be updated this year, in line with recommendations made by the Expert Group on Urban Mobility.
- No new guides are foreseen.

City database

- Information on SUMPs for urban nodes has been available on the EU Urban Mobility Observatory since end 2024.
- In case of incorrect / outdated information please contact us.
- Next step: adding information for cities and towns between 50,000 – 100,000 inhabitants (approx. 200 new entries).
